

MISSION STATEMENT: Pleasant View Elementary School, in partnership with families and the community, facilitates a safe, secure environment that promotes academic, emotional, physical, and social growth for all children to become lifelong learners.

Teacher Appreciation Week

Remember to thank a PVE teacher during "Teacher Appreciation Week" May 6-10. Our exceptional teachers play a critical role in educating and shaping our PVE students every day! PVE teachers are kind, patient, hard-working, generous, and dedicated professionals who help mold the lives of our children. As principal of PVE, I want to personally thank each and every teacher for their professionalism, collaboration, cooperation, and commitment to the continuous excellence in teaching on display daily at PVE.

Morning Arrival/Tardies

Late Morning Arrival

Students **not inside the building by 7:55am** are considered tardy. Any student arriving late to school **must be signed in at the office** by a parent or guardian. This ensures the office and the classroom teacher that your child is indeed at school and has arrived safely.

Thank You, Volunteers

Thanks to parents and friends of PVE who have volunteered and assisted with so many projects and events during the school year. The generous gift of your time and energy is *greatly appreciated*.

Counselor's Corner

SUMMER! Long days at the pool, fun in the sun, sleeping in, and catching fireflies at night are some things that I associate with summer vacation. It is important to take a break from the grind of the school year. However, the "summer slide" affects our students over the course of the two months they are away from the classroom. We want to avoid students having to work extra hard to catch back up at the beginning of the school year. Here are a few ways that you can help to slow the summer slide:

- Keep reading routinely, at least 15-20 minutes a day.
- Look into summer programs at your local library.
- Look into the summer camps offered here at PVE or in the community.
- Limit screen time.
- Have students keep a summer journal and write daily about all the fun things they are doing.
- When driving in the car, point out things you are seeing and practice vocabulary.
- Practice fast math when out running errands (How many boxes of cereal do you see?) or while prepping meals (count out 15 grapes).

Have a great summer break!

Summer School and Camps

Summer Splash Into Reading and Math
May 30-June 7

A Summer of Color
June 3-7

The Magical World of Harry Potter
June 11-14

Percy Jackson and the Olympians Camp Half-Blood
