

AP COMPUTER SCIENCE A – SUMMER ASSIGNMENT

1. Navigate to <https://codehs.com/go/AD9CB> and create an account using your *school Google account*. This should automatically enter you into my class, which is called **AP Computer Science A 20-21**.
2. Once you are in the class, you should be able to see the outline of the entire CSA curriculum. Please complete **all** of Unit 1, which is called '*Introduction to Programming in Java with Karel the Dog*'. [NOTE: You do NOT have to complete the Java Pretest, which you will see listed prior to Unit 1.]

Since each of you will be joining my class, I will be able to see your progress on the unit as you go. Completion of this assignment will count as your first major grade for the course, so it is very important that it is completed by the first day of school. If you have questions or concerns about this assignment, I will be checking my email periodically throughout the summer, so feel free to reach out to me via smcfadden@mtplcsd.org.

Looking forward to seeing you all in the fall! Have a great summer 😊
