January 17, 2019

Dear Parents and Students,

It is with great excitement that I reintroduce myself to the Mt. Pleasant Community, now as the Assistant Principal of Westlake High School. Over the past twenty-five years at the high school, I have worked with countless students and their families teaching math in an inquiry-based approach.

Since 2005, I have also served as the Mathematics Curriculum Leader for grades 6 – 12. During those years, the department has seen countless changes in curriculum and made changes collaboratively to courses while always placing student achievement first. We have designed many different alternative assessments, such as performance tasks, which were built for students to demonstrate independence and transferability of skills learned throughout the unit. It has been a pleasure leading and working with this department of very talented and creative teachers. I look forward to extending this collaborative work to departments across the building and working with faculty on their instructional goals.

As the Westlake High School Assistant Principal, I will work with all of our students, supporting them academically, socially and emotionally. I look forward to partnering with parents as well since a strong family to school connection helps to increase student achievement. If you have questions or concerns, my office door will always be open.

I am honored to serve in this new role and look forward to serving the students, parents, teachers, and community of Mt. Pleasant Central School District.

Sincerely,

Kenneth Amann
