

To use the Parent Portal, please go to the following web site:

<https://esdparentportal.lhric.org>

If you are on your mobile device, use this link:

<https://esdconnect.lhric.org/mobile/parent>

If parents have forgotten their password, they should click on the forgot password link on the login page. The system will send them an email to the address we have on file. Please ask them to check their spam if they don't receive the message.

Parents can log in and see what email is on file for them, and add an email if they so choose (they can't delete an email). They should click on the person icon on the top right of their screen and click Update Account Info, and Personal Information.

It is very important for parents to know they will NOT have their emails updated on the Main Office email list (which is the one used for communications - they don't use the ones in eSchool for that). To update their email for communications from the high school parents should send an email to Christine Cerrato with their name, their student's name, student's grade, their old email address, and their new email address, with explicit instructions about which email should be used and which should not be used.
