

Save the date!!!!

McCullough 2020 Art and Science Expo will be held on Friday, March 27,
2020!

Summer is a great time to “take chances, make mistakes and get messy!”
~Miss Frizzle

Do some summer science, document it, and you can still
present it at the expo next year!

Some great ideas can be found at <https://www.education.com/science-fair/>

After School Sessions will continue in 2019-2020
The theme will be “The Art of Science!”

Each month we will do multiple hands on activities showing a connection between art and
science. A tentative (subject to change) schedule is:

September – Expo Excitement - Project types and what is the Expo all about

October – Scientific Illustration – What’s inside your body?

November – Lava Lamp Science – Basic chemical reaction and density

December – no meeting- Happy Holidays!

January – Rainbow paper – Exploring thin film interference

February – Fingerprint Science – Which method is best to catch the crook?

March – Poster making session – We will provide supplies and help if you come with your
results!

New:

- Monthly reminders to stay ahead of the game and do a little bit at a time!
- Prizes for early bird registration!
- Poster making session!
- Public basket raffle

Returning:

- T-shirt contest
- Participant prize raffle

Let’s make the 2020 Art and Science expo better than ever!
Have a wonderful summer!!!

Your Art and Science Expo Chairs,
Donna Ward and Pam Aston
