

2019-20 Art and Science Expo Afterschool Preparation Sessions

McCullough Elementary

“It’s time to take chances, make mistakes and get messy!”
~Miss Frizzle

Welcome back to the 2019-2020 school year! The Art and Science Expo Committee is excited to continue our afterschool sessions this year to increase awareness and interest in the Art and Science Expo! The theme for this year will be “The Art of Science” and these sessions will show students how art and science do not have to be separate from one another. We will use the scientific method to explore and create art.

Afterschool sessions will occur after school from 3:30-4:30pm on the second Wednesday of each month. Each session will include a lesson, demonstration, hands on activity and a snack.

Attendance at these sessions is not mandatory in order to participate in the Expo. Students may participate in any number of sessions that they choose. Registration forms will be sent home for each monthly session.

Parents are encouraged to attend these sessions with their children, but are not required to. Please indicate on the registration form if you will be attending. Any parent in attendance will be required to sign in at the main office.

The tentative schedule for the year is:

September 11

- Expo Excitement - Project types and what is the Expo all about
- Using Blow Art to demonstrate the Scientific Method

October 9

- Scientific Illustration – What’s inside your body?
- Working as a group to create a body diagram

November 13

- Basic chemical reaction and density
- Create a Lava Lamp to take home

December 11– no meeting- Happy Holidays!

January 8

- Exploring thin film interference
- Create Rainbow paper

February 12

- Exploring forensic science
- Fingerprint and DNA Science

March 11

- Poster making session
- Come with your data and pictures to construct your display for the Expo
- Board, markers and help provided!

We look forward to working with you this year!
