

Accelerated Reader Level 1 Challenge

The class with the highest % students reaching their Level 1 goal by November 2nd will win:

Ice cream party!

AND

**\$50 Amazon
gift card for
your classroom!**

The Level 1 goal is 1/4th of their goal shown to the students on the AR software. We will have a calculation station in the library for kids to keep track of where they are in regards to reaching their goals. In addition to challenges throughout the year, the students will receive achievement buttons when they reach each of their (quarterly goals) Levels 1,2,3 and 4, as well as 50, 100 and 500 point levels.

Thank you for your support! AR is a great tool to help encourage our young readers to read more, learn new vocabulary, and build skills that will help in all subject areas!

Please let us know if you have any questions.
