COMMUNITY SCHOOL FORUM

What is it?

- Students, Families, and school staff will come together to talk about our school's vision and **discuss what our school's plan should be next year** to provide an excellent education and support for our children to succeed.
- Topics focused on: Academics & Enrichment, Attendance, Family Engagement, School Environment, Health and Mental Health, and Community Partnerships.

Why should I come?

- This is an unprecedented opportunity to make sure the school meets the needs of your child and your family, and **we need your voice!**
- As a Community School, we receive extra funding to offer after-school programs, student mentoring and tutoring as well as programs for adults like computer classes so this is an important opportunity to weigh in on school priorities.

I'll think about it...

- We understand you're busy so we want to make sure you'll leave the forum with the information you need.
- Need info on immigration, enrichment programs for your child, or mental health resources? we will have specialists in our 'Genius Bar' **to answer questions and provide resources.**
- Queens is diverse so there will be translators to make sure every voice is heard.
- Enjoy student performances and see amazing projects they've created.
- Also, did we mention there will be **food and prizes?** You will have a chance to win small and big prizes!

See you there!
