

Reopening New York

Child Care and Day Camp Programs Guidelines

These guidelines apply to all child care and day camp programs statewide. This guidance does not apply to overnight child care and camp programs, which are not authorized to operate at this time. See “Interim COVID-19 Guidance for Child Care and Day Camp Programs” for full details.

During the COVID-19 public health emergency, all owners/operators of child care and day camp programs should stay up to date with any changes to state and federal requirements related to child care program and summer day camp entities and incorporate those changes into their operations. This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

	Mandatory	Recommended Best Practices
Physical Distancing	<ul style="list-style-type: none"> ✓ Any time that employees are less than 6 ft. from each other or interacting with children/campers, they must wear a face covering. ✓ Ensure employee and children/camper groupings are as static as possible by having the same group of children/campers stay with the same staff whenever and wherever possible. Group size must be limited to no more than 10 children/campers (not including employees/staff). ✓ Ensure that different stable groups of up to 10 children/campers have no or minimal contact with one another or utilize common spaces at the same time, to the greatest extent possible. ✓ Implement practices to maintain adequate social distancing in small areas, such as restrooms and breakrooms, and signage and systems (e.g. flagging when occupied) to restrict occupancy when social distancing cannot be maintained in such areas. ✓ Take reasonable steps to reconfigure space to limit overall density of rooms to 10 or fewer children/campers. ✓ Prohibit non-essential visitors on site, to the extent possible. ✓ Establish designated areas for pick-ups and deliveries, limiting contact to the extent possible. ✓ Limit in-person gatherings of employees (e.g. breaks, meetings) to the greatest extent possible. 	<ul style="list-style-type: none"> ✓ Ensure employees maintain a distance of at least 6 ft. at all times, unless safety of the core activity requires a shorter distance (e.g. jointly responding to the needs of a child). ✓ Restrict/modify the number of work areas and seating areas for employees, so that individuals are at least 6 ft. apart in all directions (e.g. side-to-side and when facing one another). ✓ Reduce bi-directional foot traffic using tape or signs with arrows in narrow aisles, hallways, or spaces, and post signage and distance markers denoting spaces of 6 ft. in commonly used areas and any areas in which lines are commonly formed or people may congregate (e.g. vestibules in large facilities during drop off/pickup). ✓ Limit on-site interactions (e.g. designate separate ingress/egress for employees, as well as separate ingress/egress for parents/guardians/caregivers picking up and dropping of their children). ✓ Put in place measures for child drop-off and pick-up procedures to allow for strict 6 ft. distance between parents/guardians and employees. ✓ Stagger arrival and drop-times and, when feasible, have staff receive the child or camper from the parent/guardian at the beginning of the day and bring the child/camper out to the parent/guardian at the end of the day, so that parents/guardians don't have to enter the facility or program area. ✓ Maintain a staffing plan that does not require employees to “float” between different classrooms or groups of children, unless such rotation is necessary to safely supervise the children/campers due to unforeseen circumstances (e.g. staff absence). ✓ At nap/rest time, facilitate children to rest at least 6 ft. apart and head-to-toe.

Child Care and Day Camp Programs Guidelines

These guidelines apply to all child care and day camp programs statewide. This guidance does not apply to overnight child care and camp programs, which are not authorized to operate at this time. See “Interim COVID-19 Guidance for Child Care and Day Camp Programs” for full details.

During the COVID-19 public health emergency, all owners/operators of child care and day camp programs should stay up to date with any changes to state and federal requirements related to child care program and summer day camp entities and incorporate those changes into their operations. This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

	Mandatory	Recommended Best Practices
Physical Distancing (cont'd)		<ul style="list-style-type: none"> ✓ On rainy days, set program or activity capacity that allows for appropriate social distancing between stable groups of children/campers, when groups must remain indoors or under shelters (e.g. park pavilions). ✓ When caring for young children: <ul style="list-style-type: none"> • Wear an over-large button-down, long sleeves shirt or smock and put long hair up off the collar in a ponytail or other updo. • Have multiple changes of clothes on hand for employees and children in the program. • Place contaminated clothes in a plastic bag and send home for laundry or wash on premises.
Protective Equipment	<ul style="list-style-type: none"> ✓ Ensure employees wear face coverings any time they are 6 ft. apart from one another, and at all times when interacting with children/campers, regardless of distance. ✓ Provide employees with an acceptable face covering at no-cost to the employees and have an adequate supply of coverings in case of need for replacement. ✓ Acceptable face coverings include but are not limited to cloth (e.g. homemade sewn, quick cut, bandana) or surgical masks. ✓ Clean, replace, and prohibit sharing of face coverings. Consult the CDC guidance for additional information on cloth face coverings and other types of personal protective equipment (PPE), as well as instructions on use and cleaning and disinfection. ✓ Train employees on how to put on, take off, clean (as applicable), and discard PPE. ✓ Limit the sharing of objects (e.g. electronic equipment, arts and crafts materials, touch screens) and discourage touching of shared surfaces; or, when in contact with shared objects or frequently touched areas, require employees to wear gloves (trade-appropriate or medical); or, require employees and children/campers to practice hand hygiene before and after contact. 	<ul style="list-style-type: none"> ✓ Install barriers (e.g. plexiglass or similar materials) at reception and security desks, in accordance with OSHA guidelines.

This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

	Mandatory	Recommended Best Practices
Child Care Program and Camp Activities	<ul style="list-style-type: none"> ✓ For pool and aquatic activities: <ul style="list-style-type: none"> • Ensure face coverings are not worn while in the water; • Keep stable groups of children/campers separated; • Encourage water activities where staff can safely supervise older children/campers in the water without being in the water by themselves. • Ensure appropriate social distancing is kept, to the extent possible; • Enhance cleaning and disinfection protocols; • Refer to CDC guidelines. ✓ For sport and athletic activities: <ul style="list-style-type: none"> • Keep stable group of children/campers separated; • Focus on activities with little or no physical contact (e.g. hiking, running); • Encourage sports that involve less physical closeness over those that are close-contactor involve shared equipment; • Encourage activities that are lower risk such as skill-building and conditioning; • Enhance cleaning and disinfection protocols; • Refer to CDC guidelines. ✓ For food services: <ul style="list-style-type: none"> • Serve individual portions to children/ campers; • Keep stable groups of children/campers separated; • Stagger mealtimes to reduce occupancy/ congregation; • Separate tables with seating at least 6 ft. apart from other tables, as feasible. ✓ Discourage excursions away from programs (e.g. field trips). If transportation occurs, make all reasonable efforts to maintain stable groups of children in vehicles. <ul style="list-style-type: none"> • If groups of children must be mixed within a vehicle, seating must be arranged to maximize distance between different groups of children/campers and employees. • All individuals (driver, employees, and children) over age 2 and able to medically tolerate a face covering must wear face coverings. 	<ul style="list-style-type: none"> ✓ If transportation occurs: <ul style="list-style-type: none"> • Ensure that when children are boarding the vehicle, they are occupying seats from back to front, where feasible. • Increase ventilation, when weather permits, within any vehicle (e.g. opening the top hatches of buses or opening windows).

Child Care and Day Camp Programs Guidelines

These guidelines apply to all child care and day camp programs statewide. This guidance does not apply to overnight child care and camp programs, which are not authorized to operate at this time. See “Interim COVID-19 Guidance for Child Care and Day Camp Programs” for full details.

During the COVID-19 public health emergency, all owners/operators of child care and day camp programs should stay up to date with any changes to state and federal requirements related to child care program and summer day camp entities and incorporate those changes into their operations. This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

	Mandatory	Recommended Best Practices
Hygiene, Cleaning, and Disinfection (cont'd)	<ul style="list-style-type: none"> ✓ Take the following precautionary measures when taking care of young children: <ul style="list-style-type: none"> • Frequent and thorough hand hygiene for both staff and children/campers. • Whenever a child is soiled with secretions, change the child’s clothes and clean the child, as needed. • When diapering/providing assistance with toileting, wear gloves, wash hands (staff and child), and follow cleaning and disinfection steps between each child. • Refer to CDC guidelines for additional information. 	
Communication	<ul style="list-style-type: none"> ✓ Affirm you have reviewed and understand the state-issued industry guidelines, and that you will implement them. ✓ Train all employees/staff on applicable precautions/policies in the State’s guidance either remotely or in-person, using appropriate social distancing and requiring face coverings for all participants. ✓ Post signage inside and outside of the facility to remind individuals to adhere to proper hygiene, social distancing rules, appropriate use of PPE, and cleaning and disinfecting protocols. ✓ Conspicuously post completed summary safety plans on site. 	<ul style="list-style-type: none"> ✓ Develop a communications plan for employees, parents/guardians and children/campers that includes applicable instructions, training, signage, and a consistent means to provide information. ✓ Train staff on how to support children’s development of good public health behaviors and social interaction practices in congregate settings to prevent the spread of COVID-19. ✓ Designate a staff person to be responsible for responding to COVID-19 concerns. Employees and parent/guardians should know who this person is and how to contact them.
Screening	<ul style="list-style-type: none"> ✓ Instruct staff to stay home if they are sick and remind parents/guardians to keep sick children/campers home. ✓ Implement mandatory health screening assessment (e.g. questionnaire, temperature check) for employees, visitors (e.g. contractors, vendors), and children/campers, either directly or through their parent/guardian. ✓ Screening must ask about (1) COVID-19 symptoms in past 14 days, (2) positive COVID-19 test in past 14 days, and/or (3) close or proximate contact with confirmed or suspected COVID-19 case in past 14 days. Responses must be reviewed and documented daily. 	<ul style="list-style-type: none"> ✓ Perform screening remotely (e.g. by telephone or electronic survey) before individuals arrive, to the extent possible. ✓ Prevent individuals from intermingling in close or proximate contact with each other prior to completion of the screening, if on site. ✓ Screeners should be trained by individuals familiar with CDC, DOH, and OSHA protocols and wear appropriate PPE, including at a minimum, a face covering.

Child Care and Day Camp Programs Guidelines

These guidelines apply to all child care and day camp programs statewide. This guidance does not apply to overnight child care and camp programs, which are not authorized to operate at this time. See “Interim COVID-19 Guidance for Child Care and Day Camp Programs” for full details.

During the COVID-19 public health emergency, all owners/operators of child care and day camp programs should stay up to date with any changes to state and federal requirements related to child care program and summer day camp entities and incorporate those changes into their operations. This guidance is not intended to replace any existing applicable local, state, and federal laws, regulations, and standards.

	Mandatory	Recommended Best Practices
Screening (cont'd)	<ul style="list-style-type: none"> ✓ For children/campers arriving to a program via bus transportation and for employees who provide supervision on the bus, screening must be completed prior to boarding the bus, where feasible. ✓ In the event that a parent/guardian of a child/camper must be isolated because they have tested positive for, or exhibited symptoms of, COVID-19, the parent/guardian must be advised that they cannot enter the site for any reason, including picking up their child. <ul style="list-style-type: none"> • If the parent/guardian – who is the a member of the same household as the child/camper – is exhibiting signs of COVID-19 or has been tested and is positive for the virus, utilize an emergency contact authorized by the parent to come pick up the child. As a “close contact,” the child/camper must not return to the child care or day camp for the duration of the quarantine. • If the parent/guardian– who is the a member of the same household as the child/camper – is being quarantined as a precautionary measure, without symptoms or a positive test, staff should walk out or deliver the child/camper to the parent/guardian at the boundary of, or outside, the premises. As a “contact of a contact” the child/camper may return to the child care or day camp during the duration of the quarantine. • If a child/camper or their household member becomes symptomatic for COVID-19 and/or tests positive, the child must quarantine and may not return or attend the child care or day camp program until after quarantine is complete. ✓ Immediately notify the state and local health department about any positive test result by an employee or child/camper at their site. 	<ul style="list-style-type: none"> ✓ Maintain a continuous log of every person, including employees, parents/guardians, children, and any essential visitors who may have close or proximate contact with other individuals at the work site or area; excluding deliveries that are performed with appropriate PPE or through contactless means. ✓ Refer to DOH guidance regarding protocols and policies for employees, parents/guardians, or children/campers seeking to return to work or the site after a suspected or confirmed case of COVID-19 or after such person had close or proximate contact with a person with COVID-19.
