

Coronavirus Disease 2019 (COVID-19)

[CDC.gov/COVID19](https://www.cdc.gov/COVID19)

June 22, 2020

This message includes updates on the [COVID-19](#) response from CDC. The COVID-19 Outbreak is a rapidly evolving situation and information will be updated as it becomes available.

Food and Coronavirus Disease 2019 (COVID-19)

Coronaviruses, like the one that causes COVID-19, are thought to spread mostly [person-to-person](#) through respiratory droplets when someone coughs, sneezes, or talks. Currently, there is no evidence to suggest that handling food or consuming food is associated with COVID-19.
