

Dear Colleagues

I hope you and your loved ones are well.

Please see email from National EAP. I spoke with Kelly Johnson-Sally and promised to share with our Westchester colleagues and stakeholders who may be interested in providing clinical support. Please feel free to share with others.

National EAP is partnering with **Northwell** to provide onsite Mental Health support to our frontline staff at local hospitals. National EAP is looking to find Clinicians to go onsite at Phelps Memorial Hospital and provide Psychological First Aide and Employee Assistance Program Education. Providers will be meeting with hospital employees to provide in the moment support and help them get connected to their internal EAP (Employee Assistance Program). This project will be held outside on the grass of the property in tents. Personal Protective Equipment (PPE) will be provided. Clinicians will also be compensated for the services provided. All providers need to be licensed in the state of New York and carry their own liability insurance. We are scheduling Clinicians for 2 hour shifts, 7 days a week. The available shifts are 11:30AM-2:30P & 6PM-8PM starting ASAP. There is no limited on how many shifts you can sign up for. If you are interested in working on this project please contact Kelly Johnson-Sally, LMSW at 631-588-8102 Ext.10 or kellyjohnsonsally@nationaleap.com
