

Survey is live! www.wca4kids.org/parentsurveywww.wca4kids.org/parentsurvey

Dear Connecting Youth,

I hope you are all safe and well. WCA is surveying parents to better understand needs around remote learning. Please share this email broadly with your families. We appreciate your help.

Dear Westchester Parent or Caregiver!

Things have changed dramatically since New York schools closed on March 15th and families had to adjust to remote learning, working from home, and more due to the statewide quarantine from the novel Coronavirus (COVID-19). **Westchester Children's Association (WCA)** is a child advocacy organization that wants to help Westchester families by getting your feedback about your experiences schooling at home and trying to balance changes in your lives at work and home to share with key decision makers.

We would greatly appreciate your taking 7-8 minutes to respond to our short Parent Survey. All information will be kept confidential. Only summary results will be shared with Westchester County leaders, educators, and community partners so that they can make informed decisions to support you better.
