MOUNT PLEASANT COTTAGE SCHOOL UNION FREE SCHOOL DISTRICT**SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES**

The Board of Education will provide staff with access to various computerized information resources through the District's computer system (DCS hereafter) consisting of software, hardware, computer networks and electronic communication systems. This may include access to electronic mail, so-called "on-line services" and the "Internet." It may also include the opportunity for some staff to have independent access to the DCS from their home or other remote locations. All use of the DCS, including independent use off school premises, shall be subject to this policy and accompanying regulations.

The Board encourages staff to make use of the DCS to explore educational topics, conduct research and contact others in the educational world. The Board anticipates that staff access to various computerized information resources will both expedite and enhance the performance of tasks associated with their positions and assignments. Toward that end, the Board directs the Superintendent or his/her designee(s) to provide staff with training in the proper and effective use of the DCS.

Staff use of the DCS is conditioned upon written agreement by the staff member that use of the DCS will conform to the requirements of this policy and any regulations adopted to ensure acceptable use of the DCS. All such agreements shall be kept on file in the District Office.

Generally, the same standards of acceptable staff conduct which apply to any aspect of job performance shall apply to use of the DCS. Employees are expected to communicate in a professional manner consistent with applicable District policies and regulations governing the behavior of school staff. Electronic mail and telecommunications are not to be utilized to share confidential information about students or other employees.

This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate staff conduct and use as well as proscribed behavior.

District staff shall also adhere to the laws, policies and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and rights of privacy created by federal and state law.

Staff members who engage in unacceptable use may lose access to the DCS and may be subject to further discipline under the law and in accordance with applicable collective bargaining agreements. Legal action may be initiated against a staff member who willfully, maliciously or unlawfully damages or destroys property of the District.

SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES (Cont'd.)**Social Media Use by Employees**

The School District recognizes the value of teacher and professional staff inquiry, investigation and communication using new technology tools to enhance student learning experiences. The School District also realizes its obligations to teach and ensure responsible and safe use of these new technologies. Social media, including social networking sites, have great potential to connect people around the globe and enhance communication. Therefore, the Board of Education encourages the use of District approved social media tools and the exploration of new and emerging technologies to supplement the range of communication and educational services.

For purposes of this Policy, the definition of public social media networks or Social Networking Sites (SNS) are defined to include: websites, Web logs (blogs), wikis, social networks, online forums, virtual worlds, and any other social media generally available to the School District community which do not fall within the District's electronic technology network (e.g., Facebook, MySpace, Twitter, LinkedIn, Flickr, blog sites, etc.). The definition of District approved password-protected social media tools are those that fall within the District's electronic technology network or which the District has approved for educational use. Within these internal forums, the District has greater authority and ability to protect minors from inappropriate content and can limit public access.

The use of social media (whether public or internal) can generally be defined as Official District Use, Professional/Instructional Use and Personal Use. The definitions, uses and responsibilities will be further defined and differentiated in the Administrative Regulation. The School District takes no position on an employee's decision to participate in the use of social media or SNS for personal use on personal time. However, personal use of these media during District time or on District-owned equipment is allowed on a limited basis with administrator approval. In addition, employees are encouraged to maintain the highest levels of professionalism. They have responsibility for addressing inappropriate behavior or activity on these networks, including requirements for mandated reporting and compliance with all applicable District Policies and Regulations.

Privacy Rights

Staff data files and electronic storage areas shall remain District property, subject to District control and inspection. The Technology Coordinator may access all such files and communications without prior notice to ensure system integrity and that users are complying with requirements of this policy and accompanying regulations. Staff should **NOT** expect that information stored on the DCS will be private.

SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES (Cont'd.)

Implementation

Administrative regulations will be developed to implement the terms of this policy, addressing general parameters of acceptable staff conduct as well as prohibited activities so as to provide appropriate guidelines for employee use of the DCS.

NOTE: Refer also to Policy #8271 -- Internet Safety/Internet Content Filtering Policy

Adopted: 4/22/14
