A Note on Behalf of the Academy of Medical Technology

In light of the deaths of George Floyd and Rayshard Brooks, as well as the current climate it is important to make clear that AMT supports the rights of all peaceful protestors seeking a better life for humanity. At AMT, Black Lives Matter & we are hopeful for a better future for all New Yorkers. We seek dialogue that accepts the need for things to change.

Please join us in being part of the solution. As Margaret Meed best said, “Never doubt that a small group of thoughtful, committed citizens can change the world; indeed, it's the only thing that ever has.”

Students, do you want to join the conversations? Ms. Matos and Ms. Wauchope are hosting opportunities to share your voice and help to make plans to make AMT a better place.

Please join their counseling classrooms using your AMTNYC.org email address for information as to how to join the conversation.
