LET'S GET STARTED!

Getting Started

Participants engage in a variety of hands-on experiences to learn about organization, design, and resources, through direct instruction, guided practice, and cooperative exploration, participants will experience the program's resources both from a student and teacher perspective. The goal is to build deeper understanding and confidence to begin implementing in their respective learning environments.

Learning Outcomes:

- Enrich daily instruction by applying knowledge of program organization and pedagogy
- Support differentiation, assessment, and effective whole and small group instruction using HMH program resources and instructional tools

Coaching

As teachers grow in their understanding of how to use HMH programs to support student achievement, one-on-one and team coaching provides opportunities to gain knowledge from an HMH program expert firsthand. Our Professional Learning Consultants help teachers develop instructional expertise by answering program questions, leading grade-level program sessions centered on evidence of student learning, and helping teachers select and achieve instructional goals.

Individual Coaching: This side-by-side, individual coaching helps educators integrate new skills immediately into their practice. Individual Coaching provides teachers with professional learning before, during, and after lesson delivery.

Team Coaching: Team Coaching builds a community of learners, synchronizing teams of teachers across grade levels to share experience and expertise and collaborate on plans and protocol regarding product implementation. Team Coaching provides teachers with professional learning before, during, and after lesson delivery.

Getting Started Courses will be held on

Saturday Mornings at Dr. John Greico Elementary School from 9AM to Noon.

*Refreshments and hot coffee served!

Individual In Classroom Support and Team Coaching will take place Monday thru Friday.
