

AP Psychology List of Important People

Write down each of these names and write down the essential aspects of his/her theoretical and/or experimental work. DO NOT use Wikipedia to find information about any of these psychologists. Please use education sites (edu, org) Please make sure you have tried the American Psychological Association website and any major University's in which the psychologists has taught, or is currently teaching. As you read through the SCHOLARLY INFORMATION and cover EACH PSYCHOLOGIST, take notes on who they are and why we need to know about them.

Please cover each of the following people: Use extra-large index cards , one per person.

Having completed the college level identifications below, you should have a solid basic understanding of each of the perspectives in parenthesis. Please be prepared to complete a summative assessment on this entire experience (content, process, perspectives) when you return to school in September.
