

2019-2020

TEAM74 Instructional Focus: ***“Student Engagement”***

Theory of Action

“If we continue to cultivate the knowledge and skill of ALL educators, while collectively facilitating 21st Century Skills (Oral Communication and Media/Informational Literacy), and continue to integrate strategic professional development regarding:

***“data driven instruction”,
“multiple entry points”,
“questioning and discussion techniques”
and
“checks for understanding”***

the teachers will continue to be able to construct rigorous performance tasks and assessments embedded in Next Generation aligned units of study that reflect student diversity, thus student engagement and learning will continue to improve as a result of engaging in such tasks.”

This is the work that will promote equity, allowing all students to become **college** and **career ready**, as we continue to soar, *from good to Great and BEYOND!*
