Important Conversation

An important conversation that I had in my years going to De La Salle is when we were in 6th grade. There was an incident where a student was getting bullied. A group of students and I told a teacher and Ms. Becker found out. We were sent to her office to explain the issue. Then we would come to her office every now and then. Then we thought of an acronym for anti-bullying. The conversation we had was something that made me think about how others feel. I do not remember what was said but I know it was something that made me change my way of thinking. The tone was serious but inspiring.
