

WELCOME TO AP CALCULUS BC!

Hold on tight! This course is intense and very fast paced. There is **SO MUCH** information to saturate throughout the year. But we will have fun in the process :)

Please complete the packet attached, just to keep those synapses in check. There are worked out examples to guide you in case you forgot some things... Email me if you have any questions.

srivera@clarkschools.org

I will collect it on the first day (hopefully in person). Please show your work and keep it legible.

Enjoy the summer! **BE SAFE!!**
