August 1, 2017

Dear Parents and Guardians,

In this age of technology and its advancements, it is common practice for school districts to create and administer Acceptable Use Policies and Regulations to govern the use of technology within the school system.

The Clark Public School District has created such a policy as a means of protecting our students and keeping you as parents and guardians informed about the utilization of the computer network, computer, and technological resources that support our instructional programs. I am kindly requesting that you read and discuss the Acceptable Use Policy and Regulations (#2361) which are posted on the homepage of our district website: <http://www.clarkschools.org> under “Board of Education” and then “Bylaws, Policies, and Regulations.” This policy and its accompanying regulations govern the use of district technological resources.

After you have had the opportunity to read the Policy and Regulations and to discuss them with your child/children, please sign and return the enclosed Acceptable Use and Internet Permission/Non-Permission Form which is required for each student in order to gain computer/technology privileges. We will deny a student access to the network, computers, and technological resources until a signed form is delivered to the school.

The use of technology as an instructional resource offers valuable benefits to our students. We anticipate that, with your support and cooperation, we can reap the benefits of this valued instructional vehicle and prepare our students to learn technological safety and subsequently learn and flourish in this digital age.

If you have any further questions regarding the Acceptable Use Policy and Regulations, please feel free to contact your child’s principal. Should you have questions about signing the form or how the Internet will be utilized in your child’s classroom, please contact his or her teacher.

In the event that you do not have access to the Internet from your home, please stop in your school’s main office and pick up a copy of the Acceptable Use Policy and Regulations. Thank you very much for your attention to this important and timely topic.

Respectfully yours,

Edward Grande
Superintendent of Schools

Clark Public School District
Regulations for Use of Network, Computer, and Technology Resources
This form must be completed each school year.
2017-2018

I have read and understand the Clark Public Schools Computer Acceptable Use Policy and its Regulations (available online on the district website). I agree to abide by the terms and conditions in these documents. I understand that failure to comply may result in disciplinary action, including criminal, depending on the severity of my actions.

As a parent/guardian of the student above, I hereby give my permission for my child to access the Clark Public School District network, computer, and technology resources, including access to the Internet. I have read the Clark Public Schools Acceptable Use Policy and its Regulations (available online on the district website) and I understand that my child is expected to abide by the same. I understand that in some circumstances I may be held responsible for my child's actions.
