

IN SEARCH OF EARTH'S SECRETS

4-H Family Day at the Museum

Join the 4-H STEM Ambassadors and Teen Café Leaders, Rutgers scientists, and Geology Museum staff for a day of fun and exploration!

In Search of Earth's Secrets shares the excitement about ocean and earth science through activities, exhibits and a 40-foot inflatable ship. Learn more about the JOIDES Resolution project, and how clues buried in the sea floor help shed light on topics like climate change, extinction, tsunamis, and life below the seafloor.

This event is **free** and open to all!

May 19, 2018

12 - 4 pm
