## Award Policy

Writing a position paper is not necessary for being eligible to receive any award besides a position paper award. However it is highly encouraged for delegates to write one to develop a deeper understanding of whom they are representing. Please see a committee's background guide for specifics regarding whom to send papers too, and by what date they must be received.

Chairs will not be awarding delegates representing John Jay High School awards. When choosing which delegates to give awards to the dias will be looking for an accurate representation of country/character policy, debate and rhetoric skills, and respect towards others participating in the committee.
