JJMS Goal: Take the time to get to know our students well and use that knowledge to increase student engagement in our classrooms.

Classroom Mission: To create a safe learning environment that gives students a feeling of confidence and security. Each student should feel they have their own voice and are heard when they speak. It is important to instill the belief that each student can achieve anything they put their mind to. I will show them compassion and fairness and strive to meet their intellectual and emotional needs.
