Here are some things you might not have known about Dial-A-Teacher:

- ❖ The program is free, just the cost of a local phone call.
- ❖ Many children call each day (sometimes 1,000 per night).
- ❖ Some children call just to check work they already finished.
- ❖ We help in all subjects, with 80% of our calls related to math.
- ❖ We help parents understand how subjects are taught in class so they can help with homework as well.
- ❖ We do not give answers; we review the concepts and ask what students remember from the day's lesson.
- ❖ When you call Dial-A-Teacher, there is a one teacher to one student ratio. Students can ask questions that they may not have asked in class.
- ❖ We have many of the same textbooks used in your classroom.
- ❖ We speak many different languages so you don't have to speak English to use us.
- ❖ Children can come to school the next day feeling good about their homework because they were able to call us for help. It's like having a teacher sitting next to you when you are doing your homework.
- ❖ We help Grades K-12, so if your children have older brothers and sisters, they can also call and get help with their homework.

Dial-A-Teacher is open Mon - Thurs on school days, from 4-7 PM.
Just call 212-777-3380.
