October 25, 2017

Dear Parents/Guardians:

I am forming a support group for our students who are coping with the separation/divorce of their parents. This group will be open to children who have recently experienced parental separation or to those who still resist accepting the changes in their family.

The divorce/separation support group will meet once a week during 7th period, the day to be determined. Topics to be discussed will be changes in the family that occur as a result of divorce, living in two houses, the grieving process, legal issues, and step families. There will be discussions and activities in each session.

If you would like your child to participate in this group, please email me at Wmarciano@schools.nyc.gov. Please include your name, your child's name and his/her class in the email.

Sincerely,

Wendy Marciano
Guidance Counselor
