

Dear PS81 Families,

We know this has been a stressful time with the uncertainty that the COVID-19 situation has brought. As per Mayor Di Blasio's announcement, all NYC schools will be closed as of Monday, March 16th until Monday, April 20th. We know this was a difficult decision for the Mayor but we agree that it is the best decision for the safety and continued well-being of our students, families and staff. It is expected that remote learning for students will begin March 23rd. Teachers will be receiving training next week to support our students during this difficult time.

All students who were in school on Friday received packets. Children can begin using these packets and follow their daily assignments. We hope all of our students and school community stays safe and healthy and hopefully we will be back to normal soon. We will continue to provide you with updates as they become available. Our students and families are in the thoughts and prayers of the administration and P.S. 81 staff.

Best regards,

Anne Kirrane
Principal, P.S. 81
