

Carlstadt Public School

Dear Parents/Guardians,

In order to better serve our students and school community, we are conducting a school climate survey for all parents and students in grades 3-8. The purpose of this survey is to gather objective feedback on various functions within our school including academic expectations, school safety, school leadership, student involvement, respectful climate, parent and community involvement, and student learning. Feedback from this survey will help us to identify strengths and areas of focus within our school.

As you respond to each survey item please think about your own personal experiences as a parent, caregiver or guardian at your child's school. By participating in this survey, you will provide valuable insights that we can use to improve the climate and culture in our school. The data collected from the survey will be used to identify student perceptions of school climate within our school. School staff will use the results to inform our efforts at improving our school climate. The survey is anonymous and completely voluntary. You may access the parent survey by clicking the link below. Please complete the survey by **December 2, 2019**.

As stated above, your child will also have an opportunity to provide feedback through this survey. Your child will complete this survey in school. If you do not want your child to take the student survey, please notify your child's principal in writing by **November 11, 2019**. The survey is voluntary and no action will be taken against the school, you, or your child if your child does not participate.

Thank you for your time, we hope you will support our effort to ensure a safe and supportive learning environment for all students. If you have any additional questions please feel free to contact me at the below email address.
