

LAGUARDIA ARTS

FIORIELLO H. LaGUARDIA
HIGH SCHOOL OF MUSIC & ART
AND PERFORMING ARTS

Dr. Lisa Mars
Principal

Dear Math Student,

A graphing calculator is needed for the following courses: Algebra 1, Algebra 2, Calculus 1, AP Calculus AB and BC and AP Statistics. The recommended calculator is a TI-83 Plus or TI-84 Plus. While it will not be used every day, many important concepts will be taught with the aid of the graphing capabilities of the calculator.

In the event that you are unable to purchase a calculator, you may borrow one for the 2017-2018 school year. This document serves as a contract that notifies you, the borrower, that you are responsible for the location and care of the calculator (including batteries) while it is signed out under your name. If you lose or damage the calculator you are expected to:

- Pay for the replacement cost (\$100)
- Provide an exact replacement in the original package AND provide proof of purchase.

When the calculator is checked out, it will be in working condition and will include four AAA batteries. It is your responsibility to return the calculator with four working batteries at the end of the year. Should you need new batteries during the school year, it is your responsibility to purchase them.

YOU AND A PARENT/GUARDIAN MUST FILL OUT THE FOLLOWING CONTRACT:

I will borrow a TI Graphing calculator from Fiorello H. LaGuardia High School for the 2016-2017 school year. I fully understand that it is my responsibility to take good care of the calculator and to provide 4 AAA batteries while I am using it. I agree to pay the replacement value of \$100 or provide an exact replacement in the original package or provide proof of purchase if my assigned calculator is lost or returned in an unusable condition. I agree to return my calculator on or before the day of my math Regents or AP presentation. Sign below and return when you check out a calculator at the school store.
