

## **Central Lafourche High School**

### **Parent Involvement Plan**

#### **2017-2018**

Central Lafourche High School believes that parental involvement is an essential element in reaching the instructional goals of the school and academic achievement of all students. The administration, faculty and staff will provide a variety of programs to promote parental involvement throughout the school year. Documentation of these programs will include sign-in sheets and agendas of programs and meetings involving parents.

The following programs/activities are established to encourage strong parental involvement:

- Welcome letter to parents and students is found in our student handbook located on the school website under “Student Resources.”
- A 9<sup>th</sup> grade orientation is held before the school year starts. Parents are welcomed to serve on various school committees.
- We host Grandparent’s Day during the fall semester.
- A Facebook page is accessible to all parents for information.
- Parents and students are provided with a copy of the Lafourche Parish Schools Parent Handbook.
- Teachers are asked to contact parents throughout the school year to discuss student class performance and document such contact, i.e. conferences, phone calls, emails, two-way notes, letters.
- Teachers send home “Positive Note” postcards recognizing student performance growth.
- Open House notice is sent to parents for the Open House program.
- CLHS offers parents and community members the opportunity to be part of the following booster club organizations: Athletics, JROTC, Band, FFA (Future Farmers of America). Monthly meetings are held by these organizations in planning school activities and gaining parental/community support.
- A School Climate Team has been formed to address any school issues.
- Project Graduation Program for graduating seniors is a program involving a host of parents in planning and supervising the night’s events. Community sponsors are obtained for various prizes and food available for the students in attendance.
- The CLHS Counseling Center sponsors various opportunities for parental involvement concerning academic opportunities.

Central Lafourche High School will implement these activities that encourage parental involvement throughout the school year. All activities will ensure that parents of students attending Central Lafourche High School will have an adequate opportunity to participate and be involved in the educational process.
