

Summer Bridge

The Summer Bridge program was designed, by teachers, to help BRIDGE the learning gap that some students experience in the summertime. Your child has worked so hard all year on academic achievement, but during the summer months, it is easy for them to experience some learning loss. **Summer Bridge will be offered to students who will be in 4th or 5th grades beginning in the Fall of 2018.** They will be focusing on targeted reading and math skills to keep their brains in shape for the next school year.

This program will take place one day per week for 90 minutes of targeted, FUN, instruction! See the dates and times below:

2018 4th Graders – Time = 9-10:30am
