## Entrepreneur Training

Inspiring tomorrow's leaders

## Career Guidance

## Team Building

## ABOUT US

The *Futuros Empresarios / Future Entrepreneurs* (FE) Program is a community initiative started by The Hispanic Chamber of Commerce of the Lehigh Valley. Since 2009, the Fé Foundation has partnered with local colleges/universities, businesses and other private sponsors to deliver educational comprehensive life skills and entrepreneurial training to high school students of the Lehigh Valley.

Each year we select about 30 students and provide them with an opportunity to learn, explore and discover their career interests at no cost to the student.

## OUR VISION

To increase the rate of educational, economic and social success of primarily Latino students and inspire tomorrow's leaders.

## WHO PARTICIPATES

We are seeking both 10th and 11th grade Latino students who are interested in life skills and academic business training at DeSales University and a paid internship with local businesses over the summer. This is a five week program that will begin in late June.

## EXPECTATIONS

Our corporate and community partners who invite our FE Program interns to become part of their team expect the same level of professionalism from their interns as they do from their employees.

Reliability, trust, good communication skills, personal accountability and a desire to do good work are some of the character traits that every intern must exhibit, and be committed to, as part of the FE Program.

## PROGRAM HIGHLIGHTS

The program includes one week of life skills and academic business training at DeSales University. Students will reside on campus during this week of academic training. Upon conclusion of the academic portion of the program, the students will be matched with local businesses/organizations for internships where mentors share real-life business challenges and opportunities. After completion of the internship, the students will receive their stipend at the graduation ceremony.

## ADDED BENEFITS

Selected students will be able to participate in the Fé Foundation's Math and Verbal Enrichment Program (SAT Prep) in the Fall and the Textbook Scholarship program in the Spring for college/trade school bound students.
