

Word of the Week:

Formula

These are the Learning Activities that follow the video introduction of each new word. We encourage you to make your own tailored to your curriculum area, *be brief and be creative*, but in case you don't have time, use these.

Day 1: Variation 1

1. Which of the following statements is an example of the word "formula"?
 - a. It's time to make dinner.
 - b. I go to school every day at 7:30 a.m..
 - c. Length x width x height is the method to find volume.

Day 2: Variation 2

Write two examples of mathematical formulas.

Day 3: Variation 3

If any of the things I say are examples of formulas say "formula."

- a) Oil and water do not mix
- b) The order of operations
- d) "l" before "e" except after "c"
- e) Pythagorean Theorem

Day 4: Variation 4

1. Is there a difference between a formula and a recipe or are they similar? Explain.

Day 5: Variation 5

Describe a situation where you would use a formula in everyday life.
