

2017-2018 Carmel Central School District
Emergency Early Dismissal Information

In the event of an emergency early dismissal, please indicate any change of routine plans to be followed by your child in case school dismisses early for an emergency. Possible reasons for an emergency dismissal include gas leaks, loss of water service, power outage, but mostly winter storms.

The school district will use both email and an automated calling system to contact you if school is dismissed early for an emergency. In addition, local television, radio stations and news websites will be contacted so that they can broadcast the information.

Please share your plan with your child after you complete the form. The school staff can use this form to remind your child of your plan for an early emergency dismissal, in the event that your child doesn't remember. If you have any questions or concerns, please contact the Principal of your school.
