RE: Scheduling Information 2020-21

I know that this is a stressful time with the current historical health concern. Hopefully soon we will get back to a normal routine. In preparation for the 2020-21 school year, the scheduling process must move forward. GMMS will still have a seven period day. We will offer the same class structure offering in 20-21 and the current school year unless this health pandemic causes more changes. Listed below will be the scenario of scheduling options. The intent is to honor the request though our highest priority is closing any educational gaps in math and reading. The school will use final grades, unit test progress, Achieve 3000 lexile, Star Math progress monitoring, and previous test scores to determine the need for math or reading intervention. Other electives will be honored to the best of our ability after considering math and reading needs. GMMS has a great fine arts program. We will assume that if your child is in a band or choir class that they will remain in the band or choir class unless intervention is needed or a parent request is made. Art is open to 7th and 8th graders and any 6th grader who is TAG ART. We also have Keyboarding and Physical Education to offer our students. Google survey forms will be posted on the school homepage and the school facebook page to collect parent input for electives. Your child's health, safety, and education is our highest priority. GMMS faculty, staff, and administration is looking forward to a return to normal as soon as possible. Please follow us on facebook for updates.

Mr. Melancon

6th- 7 classes	7th Grade	8th Grade
Math	Math	Math
ELA	ELA	ELA
Science	Science	Science
Social Studies	Social Studies	Social Studies
Keyboarding	Academic Enhancement	Quest for Success
Academic Enhancement	2 Electives (PE, Band, Choir, Art, Intervention)	2 Electives (PE, Band,
1 Elective (PE, Band, Choir, Intervention), Intervention,		Choir, Art, Academic Enhance.)

VISION

Golden Meadow Middle School promotes a positive climate which fosters academic learning, through physical, social, and emotional growth, and creative problem-solvers for the ever-changing society.
